

ENVIRONMENTAL POLICY

AIM OF THE POLICY

Sarum Hydraulics Ltd understands that it has an important duty to ensure good environmental performance in all its business operations and to provide the necessary organisation, commitment and training to fulfil this obligation. The senior management is committed to improving environmental performance, pollution prevention and environmental protection where applicable. Compliance obligations will be fulfilled as required.

OBJECTIVES OF THE POLICY

- Incorporating environmental responsibility into all business operations.
- Utilising the most appropriate techniques to ensure compliance with the requirements of existing and future legislation, as well as encouraging those working on our site to meet the same standards.
- Segregating waste streams as necessary and maximising recycling opportunities.
- To communicate a commitment to continual environmental improvement and the prevention of pollution.
- Communicate a commitment to maintain effective communication systems on environmental matters through training and improved awareness.

Sarum Hydraulics Ltd will promote its objectives and will respond positively to enquiries and suggestions from both inside and outside the company. The company encourages continual improvement of the environmental management system to enhance environmental performance.

All employees have responsibilities for policy implementation by participating and contributing to its success through their actions and suggestions.

This policy is available to all interested parties on request.
